# About Us

**OG Limited** is among the leading companies in the storage systems markets. We specialise in the design, manufacturing, sales and services of steel racking system, steel fabrication, warehouse planning, designs and constructions, Mezzanine shelving and other storage solutions. **OG Limited** versatile racking systems can be used in wide range of ways. It can be customised to suit your needs so as to maximise your storage space. We offer custom-made steel solutions using our tested technical know-how.

We have carved a niche for ourselves and by so doing, our team has earned its place in today's highly competitive steel, racking and shelving business. Our unrelenting growth is grounded on the continuous advancement of our techniques, workflow and personnel through updated technologies and trainings for new methods and applications in our field. Whatever the storage requirement, we can make a genuine contribution to improving your business by providing premium storage products and services.

## Corporate Profile

### Overview...

**OG Limited** is a steel solution company offering excellent consummate engineering proficiency with forte in the design, manufacturing, sales and services of steel racking system, steel fabrication, warehouse planning, designs, constructions, Mezzanine shelving and other storage solutions. We assist our clients at every stage of steel solution life cycle and we can boldly say decades of experience in the steel fabrication would help us provide the most cost effective solutions for every unique project requirements. Our team comprises professionals who have advantageously and passionately combined the indigenous expertise with an international global steel solutions capability.

We have a track record and included on page (36) is a moderate list of our clientele by logos (their contacts are available on request) for further clarifications. We currently do well-intentioned business with, and for leading organisations in the Manufacturing, Banking services, Telecommunications, Logistics/Supply chain, Health and FMCG sectors of the Nigerian economy and other countries. These companies include Dangote Group of Companies, Standard Chartered Bank, Guaranty Trust Bank (GTB), Main One Cable, MTN, United Parcel Services (UPS), Nigerian Port Authority (NPA), just to mention a few.

### Our Mission

Creating a Legendary Customer Service to enable us proffer cost effective, world class Solutions to our customers storage problems, thereby increasing efficiency, business growth and profitability. To be highly competitive in our field we would embrace the first world innovations and create an enabling environment for our people.

### Our vision

To become one of the most respected and prominent service Companies in the steel industry home and abroad. We visualise the business growing, providing quality and economical services but never to lose personal touch with our clients.

## Creativity & Innovation

Our creativity is conspicuous and the finishing of our products have always been exceptional. Creativity and originality have helped us to attract, retain and build a long list of clientele. We subscribe good products satisfaction and excellent services. In ensuring this, we assist our clients using the scope of strategic and business visioning which lead to exceptional results.

## Safety

We are devoted to protecting and preserving the working environment in a responsible manner, we are very proud of how we operate and our safety track record has never been broken. Safety is a fundamental priority and has been built into our everyday work culture. We have stick to the safety catchphrase '**Safety first, safety always...**...Our health and safety programme aims at avoiding injury,

pursuing the safety, security & health of our people and the public at large and minimise the impact on the environment in which we operate.

In this regard, appropriate measures are put in place before, during and after all projects while we strictly adhere to all environmental and safety policies. Our safety awareness and training have helped to further prevent accidents and incidents. Our employees therefore receive extensive training and safety awareness by way of regular and periodic safety talks, including general and departmental toolbox meetings, with the overall aim of educating them on how to perform their duties safely, properly and in compliance with applicable local and international regulations. When it comes to safety, our philosophy is that any successful job or project is directly attributed to exceptional performance and well-planned services. Our unmatched safety record is a result of avoiding less than desirables workmanship and errors associated with rushing, stress, and poor work conditions and we are unwavering to nonstop development. We are Neboosh Certified and our ISO 9001:2015 certification has given us competitive edge.

Our overall safety target is ZERO incident as well as an accident-free and environmentally friendly workplace.

## Our People

We provide unflinching after-sales support and we also offer follow-up after delivery. We do not just provide steel solutions, our services is in gamut. *"We are what we repeatedly do, Excellence is not an act to us. It is a habit."* The entire Staff have meticulously worked on how to attract and retain customers, they are fully trained and highly experienced on both products and brands. Each member of our team can provide advice on warehouse designs and storage solutions and, once installed, they will happily offer an aftercare service of safety inspections, repairs, replacements, system extensions or extra safety accessories. To win or to have an edge in this volatile and hyper-competitive business environment, you'll need a strategic team, we are confident of our well sought after steel engineers who are also customer-centric.

### Our core benefits include:

- Responsive, local contacts
- Warehouse layout design
- OG rack design
- Safe load assessments
- Safety rack inspections
- Replacement parts
- Repairs and alterations
- Safety accessories
- Additional related products

## Our Selling Points

- Dedicated local service
- After sales support
- Technical support
- Popular items in stock

"We cherish our customers – without them we have no business being in business."

- Extremely sturdy, flexible, and adjustable
- Simple, durable and easy to construct
- Ideal for boxes, files and storage bins
- Customised to suit your products

- Designed to suit archive boxes for space maximisation
- Multipurpose storage system
- Durable to archive stored document and files
- Partitioned to organise property in separate sections
- Cost effective and longer span of years
- Can be used to organise work place in an effective and efficient manner

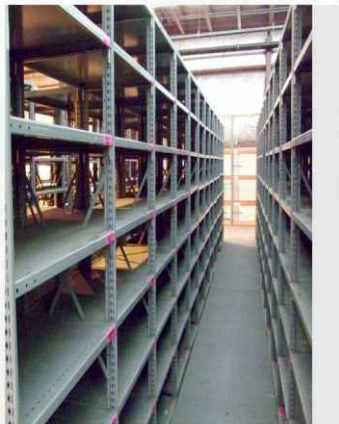

- Maximum load capacity per shelf is 100kg uniformly distributed load
- Designed for libraries, bulkroom or offices
- Boltless mounting system allows fast and easy assembly
- Shelf positions are adjustable

Dimensions of the assembled shelving system:  
2000mm x 900mm x 450mm (H x W x D)

- Maximum load capacity per shelf is 100kg uniformly distributed load
- Designed for storerooms, offices, kitchens and workshop space
- Boltless mounting system allows fast and easy assembly
- Shelf positions are adjustable
- Competitively priced

Dimensions of the assembled shelving system:  
2100mm x 1300mm x 450mm (H x W x D)

- Maximum load capacity per shelf is 175kg uniformly distributed load
- Designed for stores, baking pharmaceutical stores and finished good store
- Shelf positions are adjustable
- Highly economical

Dimensions of the assembled shelving system:  
2400mm x 1200mm x 600mm (H x W x D)

- Stores bulky or unwieldy goods efficiently
- Picking from both sides available
- Easy to integrate with other Shelving
- Spans up to 2000mm
- Accessories are available

### Shelves

High quality metal panel shelves are provided as standard. A range of alternative shelving options are available including chipboard, perforated or mesh shelves or sloping shelves.

### Dimensions

Medium Span frames are available in heights from 1 to 4 metres

Shelf depths are: 300 / 400 / 500 / 600 / 800 / 1000 mm.

Shelf lengths are: 1000mm/1200mm/1800mm/2000mm

- Our lockers are very strong, rigid and durable
- Designed for schools, hospitals, factories, etc.
- Painted finish offers a high quality appearance
- 4 door lockers have four compartment with easy assemble
- 6 door lockers have six locks compartment

Dimensions of the assembled locker system:  
1800mm x 380mm x 450mm (H x W x D)

- Versatile storage bin and small parts handling system
- Produced from high grade polypropylene, and are extremely durable
- Stack, use freestanding or hang on a lowered panel
- Label holders and dividers available

The comprehensive range of storage Bins provides a versatile, Up-to-the-minute storage and handling solution for all kinds of items.

Storage Bins are extremely durable, resistant to both oil and water, and are designed to stand up to constant use in demanding working environments.

## Storage Bins

Depth	Width	Height	Loading Capacity
230mm x 145mm x 125mm			9 kg
345mm x 205mm x 160mm			18 kg
600mm x 400mm x 200mm			21 kg

- Wide span shelves up to 2000mm
- Maximum load per bay: 3200kg
- 900kg per shelf
- Bolted frame for strength and reliability
- Easy to pull together
- Perfect for storage of big and massive items
- Designed for storerooms, archive storage and workshops

- i. They are strong
- ii. Easily adjustable, compatible with various types of equipment
- iii. Cost effective and easy to maintain

- iv. Unlimited opportunities to expand your storage capacity, giving you higher density storage and greater flexibility

- Good space utilisation by using multiple levels
- Increased picking and easy stock picking
- Reduce travel time between picks
- Increased storage capacity
- Sprinklers and lighting easily incorporated into system
- Utilisation of full working height of a building

This is a cost effective way of utilising the height of your storage space for easy stock picking. The shelving works as a support for the mezzanine floor. The heavy duty edifice of the uprights are designed to carry the loads from the floors above. Sprinkler systems and lighting can easily be incorporated into the structure.

- Robust and resilient storage solution
- Appropriate for runs of multiple bays
- Easy to fix and available in a range of sizes
- Wide range of accessories available
- Designed for the smallest storage space up to the largest warehouse

### Dimensions

**Depth:** 300, 400, 450, 500, 600, 800, 1000 mm

**Length:** 900, 1000, 1290, 1500, 1750, 2000, 2250, 2500 mm

**Height:** 1000, 1600, 2100, 2300, 2500, 3000, 4600 mm (and in increments of 1000mm up to 9900mm)

Our Industrial shelving system is superlative for storage and distribution companies. It offers speedy yet secure access to all items being stored. Increasing productivity and flexibility, which are key factors in today's competitive market.

## We are so grateful...

To these organisations for being there for us, sustaining us, raising the bar, keeping us on our toes, improving our revenue base and letting us add value to their businesses over the years...

*Wouldn't you rather have your logo here!*

## Rack Inspections

Keep your warehouse safe

- By spotting the details that cause damage early

Accidents happen in any warehouse, but regular inspections could minimise the number and effect of them. rack inspectors offer a convenient, comprehensive and cost effective way to keep your warehouse safe. Small changes throughout the year – caused by moving of goods, fitting and refitting of the racks and general knocks through the daily use – can in the end seriously change the capacity of the racks. This can lead to incidents in a warehouse, potentially causing damage to both man and material. The challenge is to spot the changes early enough to avoid additional future costs, which requires the experience of a trained expert who knows what to look for.

Our rack inspectors are fully certified, and highly experienced to conduct yearly inspections and to ensure your facilities are kept safe. Following every inspection, a detailed report is provided, offering advice and indicating areas that require immediate action or future attention. Each visit is documented and tags would be provided and clearly displayed on the racks to confirm our inspection.

Our inspections strictly comply with all government guidelines and legislation and any rectification work is fully guaranteed. Keep your warehouse safe. Let us identify the early signs before it's too late.

### Our Rack Inspection Edge:

- Comprehensive professional inspection
- Certified and experienced inspectors
- Detailed inspection report
- Extending life span of facilities
- No interruption to operations
- Prevention of damage to people or goods
- Early risk identification minimises future repair costs
- Repair work can be completed quickly and professionally
